DOG PARKS ARE FANTASTIC IF YOU:

- ✔ Want your dog to pick up an illness or become sick.
- ✔ Develop dog reactivity and/or aggression (it only takes one bad experience, one poorly behaved dog to do this to your dog)
- ✔ Create more value in other dogs and not in you, so now your dog won't/can't listen to you in the presence of other dogs.
- ✔ Develop other poor habits: humping, resource guarding, excessive barking, jumping and more.
- ✔ Teach your dog to be in high states of uncontrolled over-arousal and hyper-activity on a repetitive basis.
- ✔ Encourage your dog to get into fights and gain them some new scars from puncture wounds.
- ✔ Improperly “socialize” your dog and permanently psychologically scar them.

**“i tAkE mY DoG tO tHE dOg pArK & tHeyRe flnE!!”
It's not a matter of “IF” this will happen to your dog.
It's a matter of “WHEN” this will happen.**
